

# Herb of the Month: Geranium

pelargonium odorantisimum is one of the truest balancing oils. It is an antidepressant and antiseptic. Good for skin care. It works as a great hormone balancer in all hormone related conditions which makes it useful in menstrual disorders. Relieves pain, fights infection, stops cuts from bleeding. Tightens and tones tissue. It is useful to diminish depression, lowers blood sugar levels and helps to reduce fluid retention when massaged into the skin.
